Yes, that would be fine according to our Disclaimer/Terms of Use as follows:

*Terms of Use*

*The data contained on this website is a digital representation of recorded plats, surveys, deeds, and other documents of public record, and is made available by the Lorain County Auditor as a public service for reference purposes only. The user agrees to the following terms and conditions associated with the use of any data from this website. All data is provided "AS IS" without any warranty, whether implied or expressed; the Lorain County Auditor assumes no responsibility for the accuracy, timeliness, or completeness of Lorain County GIS data.*

*The user agrees to waive, release, and indemnify Lorain County, its agents, consultants, contractors, and employees from any and all claims, actions, or causes of action for damages or injury resulting from any use whatsoever of the Lorain County GIS data, whether suitable or unsuitable.*

*The information and data on this website is not intended to serve as a substitute for the services of a professional surveyor or professional engineer. The user affirms that the data for Lorain County will not be released or provided to any other entity without the prior written approval of the Lorain County Auditor's office. No downloaded data or materials may be displayed on any other website, used in any web map, edited, distributed, or sold. The user agrees to acknowledge the Lorain County, Ohio Auditor's Office, GIS Department as the source of any data or services obtained from this website.*

*Please report any errors or omissions to the Lorain County Auditor's GIS office by either calling 440-329-5298 or emailing [auditor@lcauditor.com](mailto:auditor@lcauditor.com).*

REST end service is as follows:

**Subject:** Re: Question about aerial imagery

Hi David,

Using the REST services listed on your open data portal would be great. Just want to confirm that OpenStreetMap contributors would be able to use this imagery for the aforementioned purposes.

On Mon, Jul 29, 2024, 5:33 AM David M. Adelsberg <[dave.adelsberg@lcauditor.com](mailto:dave.adelsberg@lcauditor.com)> wrote:

What format type are you looking for? We have our ArcGIS online data page that you can use the REST end service, or we can provide you with ECW files.

**Subject:** Question about aerial imagery

Hi,

I am a volunteer of [OpenStreetMap](https://www.openstreetmap.org/), a collaborative open project to create a global geodata set freely usable by anyone on share-alike and attribution terms under the [Open Database License \(ODbL\)](https://www.openstreetmap.org/about/#open-data).

We're very interested in using Lorain County's aerial imagery to improve the map. Contributors to OpenStreetMap will only be using this imagery to trace features such as roads and buildings. In order to facilitate this, we want to confirm with you whether or not this imagery is considered to be in the public domain or if OpenStreetMap contributors could have explicit permission to use this imagery.

Thank you for your consideration. If you have any questions or would like more information about OpenStreetMap, please do not hesitate to contact me by e-mail.

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.
