Subject: RE: Question about aerial imagery

Good Morning,

We have received the determination from our Legal department. If you plan to use the WMS links available in a document on our Open Data website, we consider these to be in the public domain and available for uses such as what is needed for OpenStreetMap. Please let me know if this answer is sufficient for your needs or if you need anything further.

[Here is a link to the WMS document that I am referring to.](#)

Thank You,

Alex Bogedain

Subject: RE: Question about aerial imagery

Hi,

Thank you for the inquiry, I have a review in with our Legal department to find out exactly what our stance is. As soon as I have word from them I will be sure to update you.

Thank You,

Alex Bogedain

Subject: Question about aerial imagery

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hi,

I am a volunteer of [OpenStreetMap](#), a collaborative open project to create a global geodata set freely usable by anyone on share-alike and attribution terms under the [Open Database License \(ODbL\)](#).

We're very interested in using San Juan County's aerial imagery to improve the map. Contributors to OpenStreetMap will only be using this imagery to trace features such as roads and buildings. In order to facilitate this, we want to confirm with you whether or not this imagery is considered to be in the public domain or if OpenStreetMap contributors could have explicit permission to use this imagery.

Thank you for your consideration. If you have any questions or would like more information about OpenStreetMap, please do not hesitate to contact me by e-mail.
