Subject: RE: FW: Question about aerial imagery

Hi – thank you asking our imagery and its use. We are ok for you to use our image service to update geographical features. We can not distribute the imagery but since you merely viewing it as a reference, it is permissible. Thank you for checking and for your volunteer time updating datalayers.
Sincerely, Cindy Abrahamson, GIS Analyst, Snohomish Co IT-GIS, Everett, WA

Hi,

I'm forwarding your request on to our IT GIS team. They maintain the aerial imagery.

Thanks,

Subject: Question about aerial imagery

CAUTION : This email originated from outside of this organization. Please exercise caution with links and attachments.

Hi,

I am a volunteer of [OpenStreetMap](#), a collaborative open project to create a global geodata set freely usable by anyone on share-alike and attribution terms under the [Open Database License \(ODbL\)](#).

We're very interested in using your aerial imagery listed in your GIS Map Services to improve the map. Contributors to OpenStreetMap will only be using this imagery to create trace features such as roads and buildings. In order to facilitate this, we want to confirm with you whether or not this imagery is considered to be in the public domain.

Thank you for your consideration. If you have any questions or would like more information about OpenStreetMap, please do not hesitate to contact me by e-mail.
