Hi,

Yes, that's what the URL's are intended for.

Best,
Dan

Subject: Re: Question about aerial imagery

Hi Dan,

Thanks for the link! Just want to confirm that OpenStreetMap contributors are allowed to use this aerial imagery to edit the map.

Subject: Question about aerial imagery

You don't often get email from ████████████████   Learn why this is important

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hi,

I am a volunteer of OpenStreetMap, a collaborative open project to create a global geodata set freely usable by anyone on share-alike and attribution terms under the Open Database License (ODbL).

We're very interested in using your aerial imagery listed in your ArcGIS online portal to improve the map. Contributors to OpenStreetMap will only be using this imagery to create trace features such as roads and buildings. In order to facilitate this, we want to confirm with you whether or not this imagery is considered to be in the public domain.

Thank you for your consideration. If you have any questions or would like more information about OpenStreetMap, please do not hesitate to contact me by e-mail.
